# **Directory of Major Johnson County Employers 2010**

## **Introduction**

This directory provides a listing of over 600 Johnson County business establishments and public agencies that employ 50 or more workers. Each establishment listing includes the company or organization name, address, city, state, zip code, phone number, employment size class, NAICS code, and NAICS code title/description. The information presented in the report is based primarily on data obtained from surveys of Johnson County employers conducted by CERI. When complete data could not be obtained for a listing through survey, supplemental data were obtained from the Kansas Department of Labor, InfoUSA Inc. as well as from local chambers of commerce and economic development organizations.

The report is divided into four sections which present a different sorting of establishments for convenient reference. The first section presents Johnson County employers alphabetically by company name. Each subsequent section provides a listing of employers by employment size, by NAICS (North American Industrial Classification System) code, and by zip code respectively.

**The information presented in this report was collected using generally accepted survey techniques. However, CERI Inc. cannot and does not warrant that the data presented are completely error free. Neither CERI Inc., nor any of its employees assumes any legal liability or responsibility for the accuracy of the information contained herein.**
